

29 July 1968

Jack:

When I found we had 120 present at the Spring Conference I was and still am very pleased.

But, as I said then, I wanted to know which of our Records Officers did not show up. I also wanted to know what Office Historian did not show up. Then I could needle the RMO's and also take extra action to insure that they did not absent themselves from the next meeting.

Thank you for the list of people who attended. I am surprised to find such RMO's missing as:

25X1A9a

I found only 12 Historians. You totaled some 27. I gathered you have knowledge of some not listed as historians. My 12 came from 9 offices. Do you know of any other offices whose Historian was on hand? I probably counted some as "Others". I see neither  showed up. Too bad we couldn't make a guess as to who the other four unsigned people were. The O/DCI components had a very poor turn out. We will have to really work on them at future meetings. DDP was surprisingly good and cooperative. This is very encouraging. (But we did send the invitations direct -- didn't we? They didn't go to DDP/RMO -- do you remember?)

How can we get the tape typed up? It would be very useful. Especially Dr. Campbell's instructions on how to prepare a Retention Plan.
